

CALL FOR PAPERS

Workshop organized by Christian Fischer-Thöne, University of Bayreuth

WORKSHOP

Young Perspectives in International Trade and Industrial Organization

02.-03. June 2022, University of Bayreuth

The research workshop addresses post-doctoral researchers in the fields of International Trade and Industrial Organization from all over Europe.

It is intended as a platform for the exchange of ideas among a group of researchers with a complementary research agenda and in a comparable academic career stage.

Young scholars are particularly encouraged to submit. We aim for an international and diverse group.

We are committed to holding the event in person. If the pandemic does not permit, the workshop will be postponed.

Funding is provided through a WiN-UBT Conference Grant, University of Bayreuth.
